SAP Learning Hub

SAP Learning Hub

Meeting your organization's business challenges

New technology

Companies invest heavily in new technology to create new processes and improve existing ones. How do you ensure continuous acceleration of the pace of innovation and change, while ensuring that your workforce is enabled to achieve your ROI?

Wide age range in workforce

How do you attract and develop new talent while ensuring business continuity as new talent comes on board and senior workforce retires? How do you provide support for teaching the next generation of professionals?

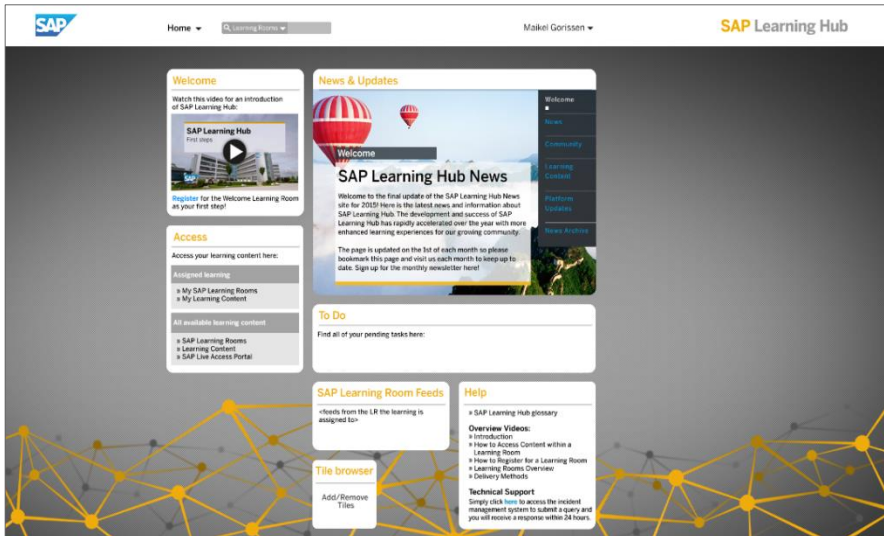

Learning needs

How do you increase understanding of SAP software solutions while reducing your reliance on third-party consulting? How do you share information and experience with peers around the globe?

SAP Learning Hub

A cloud-based learning platform for individual professionals and enterprises

SAP Learning Rooms*

Structured collaboration and social learning led by experts from SAP

- Access to all **openSAP** platform courses, offering massive open online course (MOOC)-style learning on key innovation topics
- Access to 500 Bookboon.com e-books
- Upload organization-specific content *

*Available with SAP Learning Hub, professional edition, private cloud version

Unit 1
Lesson 1

Identifying SAP Applications and Components

LESSON OVERVIEW
After completing this lesson, you will be able to identify the basic applications and components offered by SAP.

Business Example
You are responsible for deciding which applications and components your company will implement, and you must be able to identify and explain the basic functionality of an Enterprise Resource Planning (ERP) system. For this reason, you require basic knowledge of the following:

- Elements of an ERP system
- SAP applications and components
- Industry applications
- SAP solutions for small and midsize companies

LESSON OBJECTIVES
After completing this lesson, you will be able to:

- Identify SAP applications and components

SAP S/4HANA Overview

Educational content

Bookboon.com

SAP Learning Hub partnership with Bookboon.com

- Access to 500 e-books covering a large variety of soft skills topics such as time management, leadership, meeting management, and many more
- IT-related e-books covering topics such as Microsoft Excel, programming, and Microsoft Windows
- E-books offered as standard in **all** editions of SAP Learning Hub*
- E-books that can be downloaded as PDFs and can be accessed anytime

* All paid editions; Discovery Edition is excluded

Learning management system capabilities

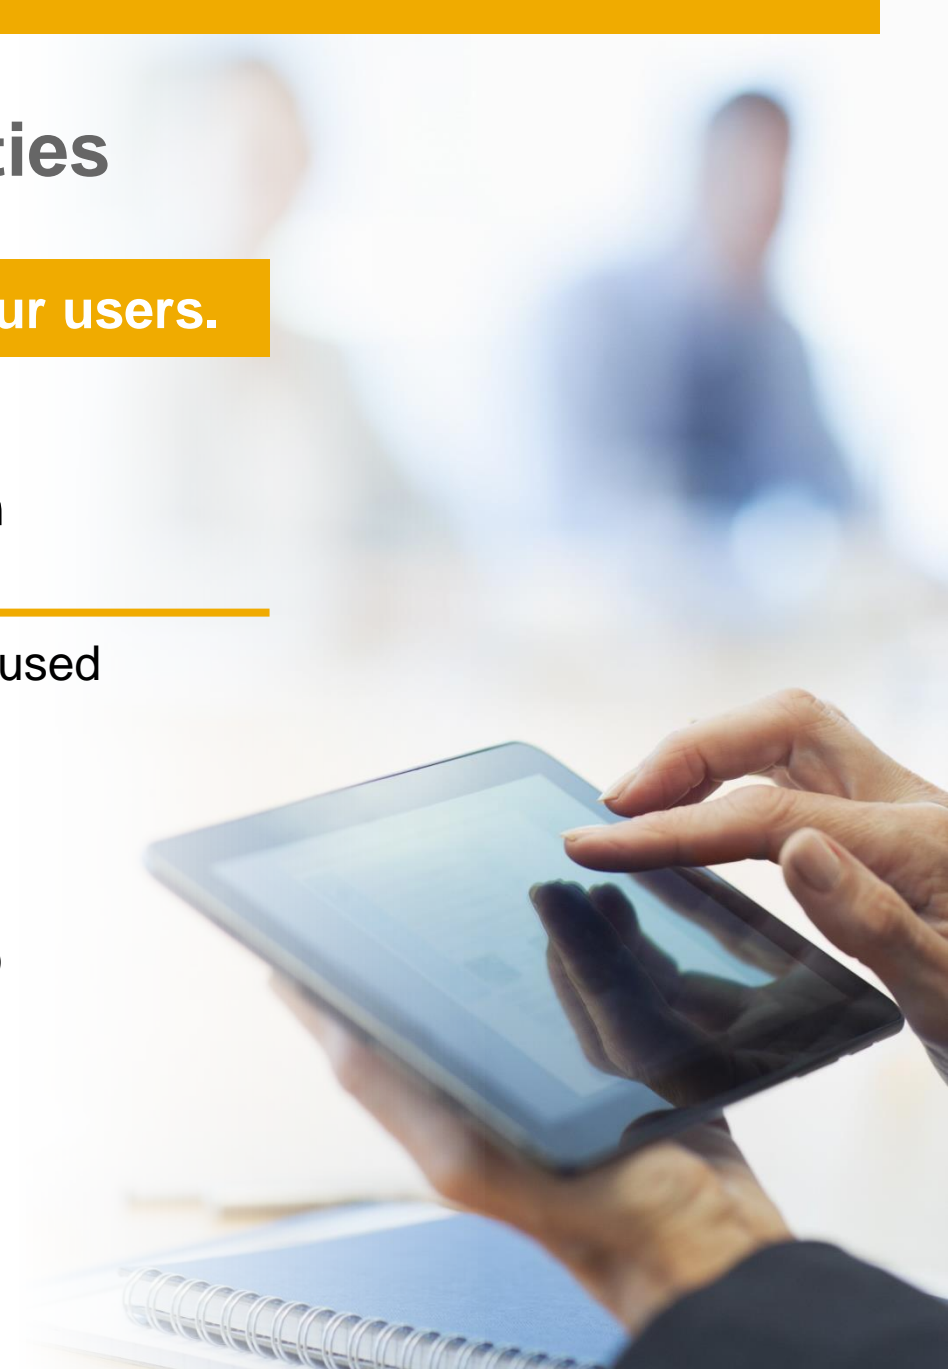

Create role-based learning programs that are relevant to your users.

Users can

- Filter courses by language, delivery type, solution area, and difficulty level
- Book and consume any training material item without additional workflow steps

With the private cloud version managers can

- Design learning plans that are focused on the needs of key user groups
- Use customer content as well as content from SAP
- Assign and push learning plans to specific users and user groups
- Set due dates for learning plan completion

Reporting

Benefit from learning reporting that tracks your learning programs.

Users can

- Access self-service reporting on learning history

Intuitive self-service tools enable managers to:

- Assign classes, create curricula, and track learners' progress*
- Access numerous preconfigured reports or create their own
- Track progress of users for assigned learning plans

* Available with SAP Learning Hub, user edition, private cloud version

SAP Live Access

Exclusive right to purchase training-system access

SAP Live Access environment

- Enhances learning experience with SAP Learning Hub
- Provides access to preconfigured training systems from SAP
- Supports course exercises and free system exploration
- Comes with flexible on-demand availability
- Is available in 20-hour blocks that last for 30 days

Why SAP Learning Hub is simply irresistible

- Significant cost reduction per learner allows you to train your entire workforce on SAP software.
- It simplifies the purchasing process to one transaction a year: no scheduling, no cancellations, and so on.
- It brings all workers up-to-date on SAP solution knowledge, providing perpetual “classrooms” in the cloud and live training systems anytime, year-round.
- It helps you empower your employees and reduce brain drain.

SAP Learning Hub

Selected success stories and references

“SAP Learning Hub lets us train our consultants at their level, based on their needs, in less time. It is a ‘moment of need’ reference tool that helps them in their day-to-day tasks. We are spending less effort on training with better results – which helps us ensure we can best support our clients.”

Bernd Knobel, Director and Head of SAP Practice Germany, CGI Germany, CGI Group Inc.

- 70%** Faster access to and use of training materials and documentation
- \$150,000** Savings through fewer canceled trainings
- 50%** More consultants trained
- 50%** More training per consultant

“SAP Learning Hub is a good tool to brush up on training when our employees need it. With constant new requirements coming our way, it gives us the knowledge we need to maximize our skills and our SAP software investment.”

Zhang Yan, Deputy Director, NTUC Fairprice Co-Operative Limited

Industry accolades for SAP Learning Hub

TSIA STAR Award

The SAP Education organization won the 2014 STAR Award for Innovation in Enabling Customer Success in Education Services. During the award ceremony, TSIA applauded the combination of best-in-class learning management system (LMS) software, a dynamic content portfolio, social learning with SAP instructors, and live SAP software access for hands-on practice as “a very compelling value proposition.” Now in its 24th year, the TSIA STAR Awards have become one of the highest honors in the technology services industry.

Brandon Hall Group Excellence Award

During the 2014 Brandon Hall Group Excellence Awards ceremony, SAP Learning Hub was named winner of the bronze award in the category “Best in Extended Enterprise Learning Program.” The Brandon Hall Group Excellence Award is considered the most prestigious awards program in the learning industry. Often referred to as the “Academy Awards of Learning,” the ceremony showcases innovations from across the industry.

“SAP Education is deeply honored to win these coveted awards. Such industry recognition of our achievement is strong validation that cloud-based learning is the right direction for our customers and partners.”

Jan Meyer, vice president and solution owner for SAP Learning Hub, SAP

SAP Learning Hub, professional edition

Meeting your organization's learning objectives

Anytime

Your multigenerational workers can access learning when they need it most and in formats that meet their individual learning styles.

Learner-centric

A variety of learning styles fits individual learning preferences: traditional content, hands-on practice, and social learning and collaboration with peers and SAP instructors.

Cost-controlled

A subscription for your entire organization allows you to manage your training budget better, minimizing content maintenance, travel expenses, and travel time.

SAP Learning Hub

Use cases

Preparing for certification

- A worker wants to prepare for administrator certification for release 7.0 of the SAP Afaria mobile device management solution – without affecting daily work too much.

In-project or day-to-day knowledge retrieval

- An employee needs to know something about invoice verification quickly – for tomorrow's workshop.

Workshopping new release knowledge

- A group of IT colleagues wants to update its knowledge on the new release of the SAP NetWeaver Application Server component – delta – on short notice in an internal workshop.

Evaluating a brand-new SAP solution or release

- A project team needs access to the latest release knowledge for a project evaluation.

Training a project team

- A project team needs to be trained on topics of an upcoming implementation.
